## Seminar Highlights

Equality is the fundamental human right. It is through proper education we build foundation for an equitable society. Equality is the elixir of life: unfortunately, even in the era of globalization we encounter gender discrimination in one form or another. Conventionally gender included two categories 'male' and 'female'. In the present era the term 'Gender' incorporates not just male and female, but the LGBTQ+ community as well. It is this ignored group of people who strive to exist in the world of the so called 'normal people' If classroom is a miniature society, then it's high time we modify educational system, in such a way that, no matter what 'sex' an individual belongs to, they have right to knowledge, right to dream, right to succeed and rise up for themselves. When NEP 2020 is being adopted by India aiming universalisation of education, will there be a room for all gender?. Even in this world of globalization we see lot of gender atrocities over the globe. To address different kinds of gender atrocities it is inevitable to have education at all levels. Hence the relevance of the Seminar.
